TEACH YOUR CHILDREN MUSIC.—You will stare at a strange notion of mine; if it appears even a mad one, do not wonder. Had I children, my utmost endeavors should be to make them musicians. Considering I have no ear, nor even thought of music, the preference seems odd, and yet it is embraced on frequent recollections. In short, as my son would be to make them happy, I think it the most probable method. It is a resource which will last them their lives, unless they grow deaf; it depends upon themselves, not on others; and of all fashionable pleasures, is the cheapest. R Hammond, L. J. Gartrell, A. W. Hammond, G. H. Hammond, W. W. Haskell, M. J. Clarke, J. W. Manning, M. S. Thompson, A. H. Cox, S. Wiel, W. G. Irwin, Margenius Bell, M. P. Byington, J. M. Goss, George N. Lester, Z. D. Harrison, B. F. Abbott, W. D. Trammell, W. L. Calhoun, Wm. T. Newman, J. A. Stephens, D. Pittman, E. H. Orr, S. D. McConnel, R. H. Clark, for Clark & Spencer, J. Brown, for Pope & Brown, J. M. Calhoun, J. M. McAfee, A. C. Garlington, W. H. Dabney, M. J. Ivy, A. B. Culberson, Farrow & Thomas, E. Y. Clarke, D. P. Hill, M. A. Bell, Henry Hillyer, Junius Hillyer, S. Dell, H. Van Epps, C. Peeples, W. H. Hulsey, W. A. Tigner, Arnold & Fears, L. E. Bleckley, I. W. Avery, H. C. Jackson, T. K. Oglesby, E. P. Howell, B. H. Thrasher, B. H. Hill & Sons, J. T. Finley, Geo. Robinson, J. B. Baird, J. S. Conley, L. J. Winn.

In signing the foregoing memorial, we have been influenced, not solely by the general principle involved, but also by the special facts within our knowledge connected with the acceptance and retention of office by personal friends, and members of the legal profession, he consulted fully and freely before consenting to accept the judgship. He had the matter under consideration for a length of time, and was in doubt and hesitation as to his duty. He mentioned several objections, among them the brief period that he had been a member of our Bar, the misconstruction of motive to which he might be subjected by holding office under Governor Bullock, and the lowness of the salary as compared with his income from practice. We endeavored to overcome his objections, and repeatedly urged him to accept for the public good We also conversed with a number of our brethren, and thought we discovered a general disposition to welcome him to the bench as a fortunate accession, under all circumstances, both for the bar and the public.

We so stated to him, and in yielding his objections and consenting to accept, he acted under the belief, as we then thought and still think, that he was gratifying us and many other Democrats, including a very large proportion of the bar of Atlanta.

It was his purpose, repeatedly expressed in our hearing, to hold the office only until the business of the court, then very much behind, should be brought up, or until by the removal of disabilities, the number of eligible lawyers in the Circuit should be increased, so as to present to the appointing power a wider range of selection. The former of these conditions though not fully realized, is almost so, notwithstanding he has been in office so short a time. Some months ago he contemplated an early resignation. We interposed to delay it, and it has been postponed up to the present, partly, we doubt not, by reason of our interference. We have thus been instrumental in inducing him to become and remain Judge of our Circuit.

L. E. BLECKLEY,
A. W. HAMMOND.

BILLS ON THIRD READING.

To provide for the investment of certain school funds belonging to the county of Bryan. Passed.

A bill to provide for the protection of the traveling public, and to require railroad companies to employ experienced engineers, etc., was eloquently advocated by Messrs. Heidt and Hoge and ably opposed by Mr. Pou.

The bill was then laid on the table.

Bill for the relief of A. J. Butts, of Baldwin county. Passed.

A Senate resolution, as a substitute for a similar resolution of the House, authorizing the Governor to employ three additional clerks at $100 per month was concurred in.

A message from the Governor was received saying that the following act and resolution had been approved and signed, to-wit:

An act to authorize the Governor to issue bonds to redeem bonds of this State falling due in 1873.

Also, a resolution in relation to acts passed at the last session of the General Assembly.

The Senate amendments to the tax act were concurred in.

A number of Senate bills were read the second time.

On motion, the House adjourned until 3 P. M.

MANZANATE BRANDY.—In California, brandy, which is said to have more body and a smoother taste than grape brandy, has been distilled from the berries of the Manzanate bush, which is indigenous to the State, growing nearly everywhere along the foot-hills and in the mountains. The bushes thrive equally well on the mountains where the soil is dry, and in the valleys where there is no moisture, requiring no labor for their cultivation. The berries are about the size of ordinary garden currants, and after gathering may be kept in sacks for months without exhibing any signs of decay.

☞ "I say neighbor Snobs, if you don't keep your hens out of my garden I will shoot them."

"Very well, Doolittle; shoot away; only if you kill any of my hens, throw them into my yard."

Crack went the fowling-piece morning after morning, and the large, fat hens were pitched into neighbor Snob's yard. They cooked well. After fortnight or more, Doolittle discovered Snobs never had any hens, and that he had been shooting his own, they having broken out of their coop.

SAVANNAH AHEAD.—We find the following in a foreign letter to one of the New York journals:

"The prettiest woman in Paris is a lady from Savannah, Georgia."

Now, let all the curious girls, go to guessing.

ASSOCIATED PRESS DISPATCHES.

WASHINGTON.

WASHINGTON, January 18.—The triangular fight between the Grand Jury, the District Attorney and the Federal Judge is progressing at Salt Lake City. General municipal disorder prevails.

The Court Circular announces that Alexis' hunting party killed twenty pair of American buffalo in one day.

The Importer sunk in the Arkansas river with one thousand bales of cotton for New Orleans. The Importer is a total loss.

The Senate is considering artificial legs for Federal officers.

In the House, nothing of importance.

The Senate Finance Committee has considered the suspension of Miller and appointment of Warner to the Collectorship of Mobile port. The matter has been postponed to the next meeting.

NEW YORK.

NEW YORK, January 18.—Rev. John Quingler, C. M., formerly of New Orleans and St. Louis, died this morning in Brooklyn.

A Columbia dispatch states that the Union Trust Company, besides assuming the debts of South Carolina on a basis of fifty cents on the dollar, also settles the indebtedness of South Carolina to the present financial agent.

A Mexican dispatch states that there is great rejoicing at Matamoras over the success of the government forces, who have captured Oaxaca and the city of San Luis Potosi. Five thousand government troops are under orders to march to the frontier. Collientes and Seacatras are favorable to the government at Matamoras. The fortifications are being strengthened and many of the more timid inhabitants have fled to the American side of the river under apprehensions of a seige by the revolutionists.

General Quiraga, rebel Mexican commander, stated on the 10th instant that he was confident of ultimate success, as the wealthy and intelligent party of the country will aid the revolution, against Juarez as soon as there is a prospect of success. He claims that the church interests favor the revolutionists, and says a centralized government is necessary for Mexico. He has plenty of men but lacks arms and ammunition, which he hopes to obtain soon from the United States.

He is anxious to obtain a quasi recognition from the American Government, and to enlist the sympathies of the American people. He expects soon to control the Rio Grande frontier and to stop future Indian raids. He will soon send a Commissioner to Washington, who will satisfy the American Government.

Cortina is still recognized as General in the service of Juarez, who is using dictatorial powers.

ILLOINS.

CHICAGO, January 18.—Monday's session of the Council was dispersed by a mob. The fire regulations seem to be the motives for the disorder.

A club has been organized to aid in the reelection of Grant.

LOUISIANA.

NEW ORLEANS, January 18.—The factions still maintain a parliamentary fight, and the militia and police protect the approaches to the capitol.

MISSISSIPPI

VICKSBURG, January 18.—A fire on the levee between Clay and Crawford involved a loss of $50,000.

MEXICO.

CITY OF MEXICO, January 18.—The Juarezists occupied Oaxaca at 4 o'clock. The Diazists are retiring toward Puerto del Angelo, whence they embarked for Mazatlan, where they will attempt to revive the waning revolution, the backbone of which has been broken. The government gains strength wherever the revolutionists incline.

Revolutionary chiefs are quarrelling among themselves. The Government General Rochelle was killed, and the revolutionary General Rochdale was wounded in the battle at San Meato. The annexation fever is prevalent among the people. All politicians are opposing the scheme of foreigners; that in an American protectorate lies only the safety of Mexico. The Government declines sending ministers to the United States, Spain, Germany and Italy on account of expense.

The study of the English language is becoming general among the youths here.

Failures of merchants, manufacturers and miners are reported.

General Rocha, at the head of 250 men is marching rapidly on San Luis in order to save that city from the revolutionists, he will then proceed to the Rio Grande.

The Price of Tickets ($ve dollars) will be the same until the First day of February next, on and after which day it is proposed that one-half the Tickets unsold will be withdrawn, the remainder to be sold at Ten Dollars each, the purchaser to be on same footing in every particular with those previously sold.

On account of the very great labor required of the General Agents, the offered services of one or more prominent gentlemen, well and favorably known throughout the South, will be accepted to act with us.

Parties desiring to contribute to the Monument, and who do not wish to participate in the award, will receive a special receipt. The money will be turned over to the Treasurer, and will be appropriated to the Monument without any deduction whatever.

To be Hung.

The Rev. John S. Watson, of London, England, who killed his wife with a poker, has been convicted of the crime, and will probably be hung for it. A clergyman of the Church of England has not been hung since the execution of Dr. Dodd in 1777 for forgery.

Colonel C. T. Goode.

Yesterday evening Colonel C T. Goode, Representative from Sumter county, made his "maiden" speech in the House on the resolution to autaorize the Governor to employ an attorney to prosecute parties connected with State Road frauds. The effort was a happy one, and elicited repeated applause on the floor as well as in the galleries.

Japan.

This country seems to be rapidly approaching a very respectable state of civilization. They not only have robberies and assassinations as we have in America, but have actually introduced railroads with the most gratifying results. A society for the protection of animals has been formed, and the Government is taking steps for the suppression of free love.

The One Term Principle.

The one term principle has recently been endorsed by the Missouri Legislature, by a vote of 86 to 21. The people have made up their minds that they will not try a President longer than one term, since the last occupant of the White House has shown that he is wholly incapable of appreciating the duties or responsibilities of the position.

Fish Culture.

The Marquis of Exeter, England, who is much interested in fish culture, very recently sent an order to Rochester, New York, for the spawn of a certain kind of fish found there, which have not been found in the waters of Europe. Hon. R. B. Roosevelt, one of the Fish Commissioners of the State of New York, has had the order attended to. A quantity of the ova of the salmon trout has been put up in proper packages for transportation across the Atlantic, and shipped to the Marquis. A quantity of young white fish were also put up in cans and shipped with the trout.

Rev. Dr. Lipscombe—Correction.

The Atlanta correspondent of the Augusta Constitutionalist speaks of Rev. Dr. Lipscombe, Professor of Oglethorpe College, in connection with the appointment of State Commissioner of the Public Schools.

There are two errors here. Rev. Dr. Lipscomb is the Chancellor of the University of Georgia, and was not an applicant for the office mentioned. We do not suppose that any office could take the distinguished Chancellor from his present position.

The correspondent doubtless referred to Professor Orr, of Oglethorpe College, who was appointed. But the mistake is one that should not pass without correction.

Sold His Bonds.

Hon. John H. James, from the letter of C'ews & Co., was apparently sharp enough to sell his bonds to Clews & Co., by means of his letters, badly spelled as they may have been. They were, however, private letters, and it is at least questionable whether Clews & Co. should have published them without Mr. James' consent. These letters were written at the time THE ATLANTA CONSTITUTION was fighting to have the coupons signed by the Treasurer and the bonds registered in the Treasurer's office. Mayor James holds that the position of THE CONSTITUTION was correct. The connection with, or participating in, fraud is far worse, he says, than bad spelling.

General Robert E. Lee.

This, the 19th day of January, will ever be remembered by our people as being the anniversary of the birth day of Lee, the Christian, patriot, nobleman, and soldier; and in the remote future, posterity will dwell in admiration upon his every distinguishing characteristic.

The noble bearing, and the many amiable and generous qualities of General Lee, won for him the people's love; and to-day in many cities of the Union he will be remembered.

When his sword was laid aside for peaceful pursuits, a halo of veneration seemed to encircle him, as one belonging to another world, though yet lingering among us; and now that he is gone; when wisdom and unshaken fortitude are needed in our country; when virtue, patience and perseverance are required, patriotism will weep over the loss of Robert E. Lee. Yet we love to think of him, for he trod the path of honor on earth, and has obtained the crown of glory in Heaven.

The character of General Lee is known to the world; and the story of his exploits will be handed down to posterity as an incentive to exalted virtue. The South embalms the memory of her glorious son, who carried in his native genius all the resources of war, and in his public and private character was seemingly without a fault.

A Proclamation Journal.

We clip the following from the Macon Telegraph:

THE ATLANTA CONSTITUTION, felicitating itself on being once again "*a proclamation journal*," and its virtue in refusing to print proclamations tendered to it by Governor Bullock, says:

"We did this, as our brethren of the press must bear witness, disclaiming any reflection upon those considering the matter in a purely business light. But situated at the Capital of the State, we felt it to be our duty to the press and the people to keep entirely clear of all contact with the vampires sucking the life-blood of our noble old State. We, therefore, closed our columns against the advertisement of official proclamations, that would have emptied thousands of dollars into our coffers."

Now we would not pull a single feather out of our contemporary's cap, if we could. If there was any virtue displayed in refusing a legitimate advertisement from Bullock, let THE CONSTITUTION have credit for it. In our judgment, however, true rectitude consists not in refusing legitimate employment in respect to the character of the employer, so much as in doing one's proper and lawful work faithfully.

Shall we then say to our friend, that in his first essay as a "proclamation journal," with the highest kind of "high moral ideas," he has spread out the proclamation to nearly double the space it should occupy, either in respect to a reasonable degree of prominence or gracefulness in appearance by interjecting three leads between each line and huge spaces under the heads and between each paragraph—in order, apparently, to be able to charge just twice as much as the work properly done would be worth?

Now, "dat ish nice," is'nt it? THE CONSTITUTION corps is so fond of fun that we are all constitutionally opposed to spoiling a good joke; and the above from our Macon neighbor is a capital one, saving that the facts of the case knock it into "pi." But it brings us up standing—"we rise to explain," and in doing so, we almost feel that we have just cause of complaint against our cotemporary, for it is hardly kind to write so long a homily on a doubtful matter, all tending to make a damaging impression about an act of THE CONSTITUTION. That, certainly is not the course that we pursue with our brethren of the press, and our record is proof of it.

The facts are simply these: The proclamation was sent up to the composition room with a number of advertisements. The typesetter seeing no direction as to the space to be occupied, of course gave it what he thought a proper display. It occupied *seven* squares; but the business manager charged the State for *four and a half squares only*, and the entry on the books was made *on the morning the advertisement appeared*. Any one is welcome to satisfy himself of that fact by inspecting the record. We actually charged less than the Telegraph, that charged for *five squares*, which was about proper. We trust our neighbor will set us right.

The following comment of the Savannah Morning News is eminently just and correct; but the best plan (and we doubt not it will be adopted) is to have the proclamation marked as to space like all other advertisements, because proclamations, just as other advertisements, may require more or less space or display according to their importance.

"Our friends of THE ATLANTA CONSTITUTION felicitate themselves on the fact that they can now publish the gubernatorial proclamations, which they spurned under the Radical regime. While we congratulate them on the change, we would respectfully suggest that proper considerations of economy of the people's money should induce an abandonment of the double-leaded show bill style of publication of such documents. The practice of displaying Executive advertisements was a swindling Radical innovation, which Democrats should discountenance."

The Swedes.

A number of gentlemen in the city and in the State were induced, some time since, by Mr. J. Foss, to import through him a lot of Swedes, upon a contract that they were to pay $75 for each one, free of other expense, delivered at their various destinations, but paying $25 additional during a year's service, which commenced from the first day of work. It seems that it was thought advisable to entrust the advance money to the keeping of Mr. N. B. White, a gentleman possessing the confidence of the people of Monticello, who was to deposit the funds in New York, the money to be refunded in case the servants were not forthcoming. A gentleman in this city, failing to receive a servant, for which he paid the $75 advance, wrote to Mr. White to refund the amount, and received this reply:

Yours of the 19th is before me. Mr. Foss left here a day or two since for Eatonton and Macon, from thence he would go to Athens and then to Social Circle, and then to Atlanta. You will doubtless see him soon, when he will make it all right with you.

Respectfully yours,
N. B. WHITE.

There is an impression that Mr. Foss is not acting rightly in this matter. Some of the Swedes have an idea that their contract is not binding, and they might do as they pleased about it. But they are laboring under a dangerous mistake, that may draw upon them the tight grasp of the law; and those who may employ Swedes under (a) contract with others will do well to remember the law, approved December 13, 1866, which recites that it "shall not be lawful for any person to employ any servant in the employment of another for and during his term of service," etc., subjecting any one violating the law to fine and imprisonment. The people who have hired these Swedes have resolved to defend their rights to the extent of the law; and they are right. They have advanced money to import needed labor into the country, and they should not be illegally or fradulently deprived of their means. Those in our city who have employed Swedes speak of them in high terms, though some few at other points have left their employers.

But to return to Mr. Foss. He writes a letter from New Orleans to the gentleman who asked the return of his $75, from which we make the following extracts:

"Please collect from your servaat girl $15, for me, and from ——, $60, making seventy-five dollars, which I owe you. I inclose note on —— for the $60."

He advises the people not to invest any more money in emigrants, and says he is "going to Paris, France, in a few days." This matter does not look right, and Mr. Foss had better come back to Georgia and explain.

The State Treasurer vs. Henry Clews & Co.

We clip the following from a late issue of the New York Sun. Results have proven that Dr. Angier's exposures of Bullock and his issues of bonds were just and correct, and this circumstance alone gives great weight to his charges against Clews & Co. The letter of Clews & Co., published a few days ago, was perhaps suggested in part by this article of the Sun:

Dr. Angier, the Treasurer of the State of Georgia, in his annual report, just published, makes some exceedingly grave charges against the firm of Henry Clews & Co. of this city, in regard to the negotiation of State bonds which he alleges were illegally issued. He says the firm was early notified of the issue and defects of the State bonds, and that no one knew better than Henry Clews that he was receiving from Governor Bullock fully executed State aid bonds in positive violation of law.

Dr. Angier says that in the account of Henry Clews & Co. against the State of Georgia, besides the amounts reported as advanced on Bullock's illegally issued bonds and unauthorized drafts from Blodgett as Superintendent of the Western and Atlantic Railroad, the commissions and interest charged are fully double the usual rates on so large amounts; while he intimates that their reported sale of gold bonds was fictitious, and simply a trick to cover advances to Governor Bullock and his Superintendent. In short, the charge is explicitly made that Henry Clews entered into a conspiracy with Bullock to defraud the State of Georgia.

These are very serious charges, and should be met at once. Messrs. Henry Clews & Co. should have a double motive for giving the matter their immediate attention, namely, to protect their good name as an honorable and upright commercial house, and also to relieve themselves from responsibility to holders of Georgia bonds purchased at their hands. If Dr. Angier's charges should be sustained, Clews & Co. would undoubtedly be liable for the payment of the bonds which they have sold, even if they should be repudiated by the State of Georgia, as will probably be the case with all those which have been issued in violation of law.

We presume that Mr. Clews will be heard from on this subject at once.

OUR WASHINGTON LETTER.

Absentees--The Supplemental Civil Rights Bill--Triumph of the Press--The Democratic Piers of Georgia--Senator Schurz--Japanese Cadets--Etc., Etc.

WASHINGTON, January 15, 1872.

Editors Constitution: Congress has been one week in session since the recess, and in that time it has accomplished very little. A quorum of both houses was present on the day of reassembling, but there were many vacant seats, the attendance not being so large as on the opening day of the session. I had hoped we had done with absenteeing on our side at least, but there were many Democrats among the missing.

It had been announced in certain quarters that Mr. Sumner had consented to withdraw his Supplemental Civil Rights Bill as an amendment to the Amnesty bill, and to leave his pet measure to stand on its own merits. But no one who knew Mr. Sumner believed this. He cares very little for amnesty—indeed, is opposed to it—and is firmly wedded to his negro idols. During the recess he sent out hundreds of circulars, which have brought in a perfect avalanche of petitions from negroes in all parts of the country, praying Congress to pass the Civil Rights bill without delay. In many cases, indeed, in nearly all of them, the signatures to the petitions are in the same hand-writing; and I fancy it would be a difficult task to fit the signature to the mythical individual they purport to represent. But Mr. Sumner sends these documents to the Clerk's desk daily with as much pomposity as if they represented millions of intelligent and respectable human beings. The amnesty bill was not taken up on Monday last, owing to the absence of Senator Robertson, who has it in charge, but is the order for to-day. Should Mr. Sumner get his bill through as an amendment to the amnesty measure, it is conceded that it cannot pass the House, which will return to the Senate the original amnesty bill. As many of the Radicals have become convinced of the expediency of granting amnesty it can hardly be much longer delayed.

On Tuesday Senator Clayton made a "personal explanation;" but those who were obliged to listen to it or have since reviewed it in the Globe, declare it to be uncommonly "thin." Clayton is of the stamp of Bullock, Blodgett, and Scott of South Carolina, and a great deal of whitewash will have to be used to cover up the evidence to be presented to the committee which is to investigate the case, if he is to retain his seat. Since this "personal explanation" the Iowa Legislature has rejected Harlan, the notorious land jobber, whom the Senate had permitted to retain his seat in the face of the most glaring evidences of corruption and frauds. Harlan was defeated on his record alone, and that record was made public by a Republican correspondent of a Republican newspaper. I refer to General Boynton, of the Cincinnati Gazette. This may, therefore, be set down as the triumph of a free and honest press over rascality. Bullock's down fall and exposure is due to the same cause. The people of Georgia owe a debt of gratitude to the Democratic press for destroying the Bullock ring which was plunging the State into financial ruin, and I trust they will not soon forget that THE CONSTITUTION was foremost in the fight. But enough of Radical rascals and rascalities for the present.

I find I have overlooked the "personal explanation," of Monday, in the Senate, and will bring them in here. Mr. Schurz led off with a refutal of certain charges which appeared in the editorial columns of the New York Times, the kitchen organ of General Grant. The Times is edited by Englishmen, whose cockney airs and ignorance of our institutions, are only equalled by their impudence. Mr. Schurz's self-vindication was complete, and was one of the most splendid efforts of the kind ever heard in the Senate. And here let me introduce what "An Observer from the Diplomatic Galleries," with whose sentiments I fully agree, has to say of Mr. Schurz:

"I remember him when he was a fleeing outlaw, in '48, and when he escaped to this country to avert punishment for his Radicalism. It's useless to talk of such a man as one devoid of personal or moral courage. His history is one continuous refutation of such charges. But in Germany, the land he really loves, there was no such thing as amnesty for his crimes against the government authorities. He felt when his cause failed in '48 all the pangs of unjust proscription that your Southern leaders feel now. Can you wonder that, not having forgotten his feelings then, he should now be foremost in the efforts of those who are striving to restore the forfeited rights of the Confederates? Once let those rights be restored, and he will be found on the side of extreme Radicalism."

On the same day Mr. Fenton made a "personal explanation," with regard to the New York Custom House, in the course of which he added many links to the chain of evidence regarding the corrupt management of that institution. If the committee should do its duty, and not resort to whitewash, as it is intended it shall, there would be quaking in high quarters, and the chances of Grant for re-nomination would be slim indeed. But we shall doubtless have a minority report from the new Democrats on the committee, in which the truth will be told.

On Wednesday, the question of admitting half a dozen Japanese as cadets at West Point was debated, but the bill finally went over. Most people will doubt the expediency of educating these Eastern barbarians, who may later use their influence against us; and if we admit the Japanese to West Point and Annapolis, why should we exclude the youth from other nations? Japan has fastened fat offices on some of our citizens, but I don't see that that calls for a display of national gratitude. We had better wait awhile and see how our adventurous countrymen are treated in Japan. Missionaries sent there have been murdered, and it is not at all improbable that our exported officials may share a similar fate.

When the Japanese were laid on the shelf, Mr. Carpenter proceeded to demolish the civil service reform humbug, with his usual sledge hammer blows. He certainly echoed the popular cry on this subject as it comes from his Northwestern constituency. He believes that Massachusetts, Rhode Island, Missouri, etc., have gotten along well enough without civil service system, or rather that their selection of Senators and Representatives shows the infallibility of popular government, and wants to know why the constitutional way of appointing officers is not good enough for this degenerate day when everybody is trying to shirk responsibility upon the shoulders of others. It is believed that the legal Representatives in the House will be compelled to strangle this "political delusion," as they cannot openly defeat it consistently with their allegiance to the President, and dare not send it to their constituents as a part of their work in Congress. In short, the politicians have got a bigger elephant on their hands in this attempted reform than they ever dreamed of.

Thursday, Conkling, who had been duly advertised before hand, rose to one of the mightiest efforts of his career. (This is his view of it, not mine.) He had undertaken to annihilate Mr. Sumner's one-term amendment, and he only succeeded in beslabbering Grant with fulsome praise and assailing the Senator from Massachusetts with coarse abuse. It was a labored effort, but fell flat. Morton put in a word or two on the same side, and then Mr. Sumner came to the front. He disclaimed to notice the insults of Conkling, but proceeded to advocate the amendment with customary force and eloquence. This closes the record of the Senate proceedings of the week, it having adjourned over on Thursday until Monday.

There was little in the House proceedings of last week to call for explanation or comment. The only measures of national importance brought before the body were Mr. Cox's resolutions for according recognition to the struggling patriots of Cuba, and Mr. Morgan's resolution making foreign citizens who have been naturalized eligible to the Presidency. Both created a stir, but the Radicals squelched Mr. Morgan's at once. The resolution of Mr. Cox is, however, favorably regarded, but has been buried in the Committee on Foreign Affairs.

Having thus brought up to date my chronicles of Congress, I bring this letter to a close, reserving other matters for a second epistle to be written later in the day.

TOMMY HAWK.

EX-GOVERNOR JOSEPH E. BROWN.—While, as it is well known, our ideas of political affairs have not run in the same channel with those of Governor Brown, and while we are not disposed to rob the late acting Governor of any part of the credit due him for retiring from the Executive chair without a needless and hurtful struggle, our knowledge of the facts of the case constrains us to express the opinion that ex Governor Brown is entitled to great credit for his activity in bringing about a quiet and peaceful solution of the difficulty which, at one time, was threatened.—*Southern Watchman.*

☞ An Oregon paper thinks it is not exactly fair that Grant should be prosecuting Brigham Young and the rest of the Mormons for polygamy, when he seems to think that the same offense in Bowen was no crime worthy any punishment.

GEORGIA LEGISLATURE.

SENATE—AFTERNOON SESSION.

THURSDAY, January 18, 1872.

The Senate met at 3 o'clock, P. M., President Trammell in the Chair.

The report of the committee on the management of the Western and Atlantic Railroad was taken up and, on motion, adopted. The report recommends that the Governor employ a competent attorney to bring suits for the recovery of property or money stolen or fraudulently detained, belonging to the road or the State, and to prosecute persons guilty of violating the criminal law in any way in connection with said road; also authorizes the committee to audit accounts of agents, etc., of the Western and Atlantic Railroad.

After which the Senate, on motion, went into Executive session.

After which the Senate returned to open session, and, on motion, adjourned until 10 o'clock, A. M., to-morrow.

HOUSE—AFTERNOON SESSION.

The House met 3 P. M.

A bill to incorporate the Oglethorpe Manufacturing Company was passed.

The bill to incorporate the Georgia Steam Wagon Company passed.

A resolution by Mr. Hall, of Upson, declaring that section 1414, Revised Code, was incorporated in said Code by mistake, and is therefore a nullity, was adopted.

A bill to incorporate the town of Jefferson was passed.

The special order, to-wit: The report of the Committee on the Western and Atlantic Railroad, was taken up and read.

The committee reported a resolution authorizing the Governor to employ an Attorney of known ability and integrity to bring suits for all money illegally drawn from the State Road, and to prosecute all persons who have defrauded the State.

Mr. Payne offered a substitute requiring the Attorney General to perform this duty.

Mr. Bacon moved to amend the substitute by allowing the Governor to employ associate counsel to aid the Attorney General when necessary.

Mr. Wofford, of Bartow, thought that officers of the State who are paid salaries ought to be required to perform their duties, and if they do not they ought to be removed.

Mr. Bacon urged the importance of allowing the Governor to employ additional counsel.

Mr. Russell said that the people of Georgia have cause to suspicion that the Attorney General will not conduct these prosecutions as justice would demand. He was therefore in favor of employing some other attorney.

Mr. Goode said that if any attorney was employed to assist, all his suggestions would go for nothing, if they did not meet the approval of the Attorney General. He was therefore opposed to the substitute and the amendment thereto.

Mr. Jackson favored the resolution offered by the Committee.

Mr. Bacon withdrew his amendment.

Mr. Wofford, of Bartow, moved to amend the substitute by adding that the Governor shall employ counsel to represent the State until the term of the present Attorney General shall have expired.

Mr. Bush called the previous question.

The call was sustained.

The resolution as reported by the committee was adopted.

The Committee also reported a resolution authorizing the committee reporting it to investigate all accounts of agents and others dealing with the Western and Atlantic Railroad and to direct the Treasurer to receipt for all balances found due. Adopted.

The following resolution was adopted.

"Resolved by the General Assembly, that with the evidence before them showing the connection of Jno. L. Hopkins, Judge of the Superior Courts of the Atlanta Circuit, with the administration of the Western and Atlantic Railroad during the year 1870, and that it is a fact that there are now pending, and will probably other suits and indictments in the Superior Courts of which he is the Judge, against officers of the road as to matters growing out of that administration, it is the sense of this General Assembly, that it would be improper for him to preside as Judge in the trial of those cases, and upon notice from said Judge that such cases are to be tried it shall be the duty of his Excellency, the Governor, to designate some other Judge of the Superior Courts of this State, who has been in no way connected with the administration of the Western and Atlantic Railroad to preside in the trial of such cases, and that Judge Hopkins is respectfully requested to call in to his place some other Judge, who may be designated by his Excellency, the Governor.

On motion, the House adjourned until 9 o'clock A. M., to-morrow.

Correspondence--The Holly System.

ATLANTA, GA., December 22, 1871.

J. C. Hansell, Esq., Insurance Agent, Peoria, Illinois:

DEAR SIR—I write to ask your opinion of the Holly system of water works for city supply. Does it really and practically supercede the necessity of fire engines? What effect has it had upon the rate of insurance in your city? Any reduction, and if so, what per cent.? In a word, I wish all information in your possession as to this system from an insurance stand-point—your own opinion and that of your local Board of Underwriters.

There is talk of adopting the Holly system in our city; hence my inquiries.

Very respectfully,
JOHN C. WHITNER,
President Atlanta Board Underwriters.

PEORIA, ILL., January 11, 1872.

Jno. C. Whitner, Esq., Atlanta, Ga.:

DEAR SIR: Your favor of the 22d of December, was duly received and contents duly noted. I can reply to the first question that my opinion is that the Holly system cannot be excelled, when dependence is placed on pumping power, and the expense is a part of the consideration.

If I consulted the pocket of an agent only I would vote against it; if the interest of the company and people, I should certainly advocate its introduction at once. It is worth to the insurance companies at least a reduction of 25 to 35 per cent., but the public will be so sanguine that 75 will be demanded. It is only necessary to have a good system of hose carriages and paid men, with a good engineer, and I think, with these, you will have the business part of your city almost safe from fire, and entirely so from conflagration.

Since its adoption in our city we have had no considerable loss except on mills and distilleries, and then it secured us large salvage except on grain.

You can look for an increase of water damage, while almost invariably fires will be confined to buildings when originating low in frame ranges. The very moment of the receipt of your letter, a fire was extinguished here in a few moments, after shooting from ground to fourth story and roof, through a "dummy" or elevator, where property to the amount of half a million was badly exposed, and yet the loss did not exceed one thousand dollars.

With these hasty replies to inquiries, I remain, yours truly, etc., J. C. HANSELL.
President Peoria Board Underwriters.

MIDNIGHT DISPATCHES.

INDIA.

BOMBAY, January 18.—The dangerous revolt among the Looties, of Indin, has been suppressed. At the first signs troops were dispatched from Delhi. They marched on the headquarters. The rebels, whom they met in large forces, have been entirely defeated, killing one hundred and taking several hundred prisoners. The rebels have dispersed, and the country is now perfectly tranquil.

MERCER UNIVERSITY BUILDINGS.—We give place with pleasure to Judge Clarke's explanation of the seeming delay attending the projection and completion of the several edifices which will be needed for the institution. Months were required for the elaboration of the architectural designs, which are unique in character and exceedingly beautiful. Macon will have cause to be proud of her college and court-house, both the offspring of the same teeming brain. Every impediment to the location and rapid progress of the work has now been removed, and it may be expected to go forward with all practicable celerity.—*Macon Telegraph.*

THE GREAT WEST.—Few people really realize how many acres are unoccupied in the great West. There are eleven territories, two or three of which are twice or three times as large as all New England; and it is a small territory that is not at least ten times as large as Massachusetts—Colorado is thirteen times as large as Massachusetts, Dakota and Arizona are half as large again as Colorado. The eleven territories contain over one billion and a quarter acres, exceeding by nearly two hundred thousand square miles the aggregate territory of all the present admitted States of the Union. The territory of Alaska contains 469,589,600 acres.

"A NATION OF ORATORS."—England has been called a nation of shopkeepers, and the same term has been applied to our people; but a polite and politic Russian, belonging to the Grand Ducal party, has gracefully conferred upon us the more complimentary title which stands at the head of this paragraph. The judgment was rendered by the imperial chancellor, in his impromptu speech at Milwaukee, accompanied at the same time by a modest disavowal of oratorical pretensions on the part of Russia, which modesty was heightened by the shrewd observations embodied in felicitous language by the speaker on that occasion.

THE MANUFACTURE OF DWARFS.—Making dwarfs and beggars is a common business in China. For the first, a child of three or four years is taken, and a heavy porcelain vase is put over him, so that the head alone is free. This is taken off every evening so that he may sleep, and is put on again in the morning. The child thus advances in age in this inflexible mold until he can no longer grow. Then the vase is broken. The horrible sufferings that must be experienced in this process are even exceeded by the practices in certain establishments in Pekin, where beggars voluntarily submit to having their eyes taken out and their limbs broken in order to excite public commiseration.

REMEMBER the lecture on Atlanta and her babyhood to-night at Representative Hall.

DEER.—Thompson received yesterday one of the largest Bucks ever seen in this market. "Go for it" at once.

LAST CHANCE.—But two days remain to purchase the celebrated Alaska Diamonds from Davis, sole agent at 25 Whitehall street.

FIRE ALARM.—We learn that the Fire Department has appointed a committee to visit Council and urge upon them the adoption of some system of fire alarm. This is an imperative necessity.

BOOTS AND SHOES.—We invite attention to the card of S. B. Oatman, Agent. He has opened at 81 Blue Front on Whitehall street, a fine stock of boots and shoes. Call and see his old man's common sense boot. Go and look at his stock.

MARDI GRAS.—The proposed excursion from Atlanta to visit New Orleans, via the Blue Mountain Route, on the occasion of Mardi Gras, meets with popular favor. The excursion leaves Atlanta on the 9th of February, and New Orleans on the 16th. The tickets are good for thirty days.

COMMITTED.—Justice Butt yesterday committed James D. Salter to jail in default of $3,000 bond, to answer the charge of assault with intent to murder Lieutenant Holcombe. Howard Van Epps appeared for the prosecution, and John A. Stephens for the defendant.

SASSEEN HOUSE.—The Sassen House, at the corner of Alabama and Pryor streets, under the management of E. R. Sassen is having a fine run. He charges $2 per day or fifty cents per meal. G. W. Sassen and Major M. C. Martin are the courteous clerks, and T. G. Gresham, the live wide-awake and untiring Steward. It is a good house.

PERSONAL.—Colonel J. R. Sneed, the veteran editor of the Savannah Republican, is in the city, hale and hearty.

General A. R. Wright, of the Chronicle and Sentinel, was in the city yesterday.

S. J. Winn, of Lawrenceville, was in the city yesterday, as "happy as a big sunflower."

SUPREME COURT OF GEORGIA.—ATLANTA, January 8, 1872.—Charles H. Williams, Esq., of Columbus, Georgia, and Henry D. McDaniel, Esq., of Monroe, Georgia, were admitted to this bar.

Argument of No. 10, Blue Ridge Circuit, was resumed.

Pending the argument of this cause court adjourned till 10 o'clock A. M. to-morrow.

SPEECH OF HON. B. H. HILL.—The Hall of the House of Representatives was crowded last night with ladies and gentlemen, to hear the above named gentleman, who delivered a very fine speech, as he always does. We hope to be able to present the speech to our readers, phonographically taken. He reviewed his past political course and spoke of the policy to be pursued in the future.

CONFIRMATIONS.—The Senate yesterday confirmed the appointment of H. H. D. Twiggs Judge of Middle Circuit; A. C. Pate, Judge of Oconee Circuit; J. T. Glenn, Solicitor of Atlanta Circuit; C. S. Crisp, son of W. H. Crisp, actor, Solicitor of Southwestern Circuit; S. P. Lumpkin, Solicitor of Northern Circuit; J. C. Rutherford, Solicitor of Albany Circuit; Rollin Stanley, Solicitor of Oconee Circuit.

DANGEROUS.—The carrying of fire-arms on the persons of adults is not to be commended. But it seems that the practice is not confined to them. Boys from ten to twelve and upwards, we learn, are given to the habit of carrying weapons. It is a dangerous and foolish habit. On Wednesday, Charlie Parsons, on Mitchell street, while playing marbles in his own yard, ran his hand in his pocket and accidentally fired off his pistol in his right hand pocket. The ball penetrated his left leg just above the groin, and went nearly to the knee. He nearly bled to death before Dr. J. M. Boring reached him. The wound is severe, though not considered fatal. This ought to prove a warning to the boys. Parsons was twelve years old.

PUBLIC SCHOOLS.—The registration of applicants for places in the Public Schools goes on more smoothly than at first.

The work has been so systematized that there is no delay and no friction.

Yesterday registration for the Crew Street School commenced. Three hundred and seventy were received and 215 registered—186 for the Crew Street School, and 30 for the High Schools. To-day and to-morrow registration continues in the same district.

Monday, Tuesday, and Wednesday of next week will be given to registration in the Ivy Street School.

BENEVOLENCE.—We are glad to see a move in the right direction. On Sabbath last a Mission Sabbath School was established in the northwestern part of the city. The building could not hold the children, many of whom were bare-footed and without sufficient clothing to protect them from the cold. A committee from the children's Aid Society, lately formed, will wait upon our dry goods merchants today to get remnants to be made up into clothing for the needy ones. Old clothing will be thankfully received, and if sent to Mrs. William A Moore's residence on Walton street, will be remodeled and distributed.

HAIGHT & CO'S CIRCUS.—This institution organized and equipped in Atlanta, is billed here on the 17th of February. We notice that the press generally are complimenting it highly. The Florida Union says:

Haight & Co's. Mammoth Circus and Menagerie, arrived here yesterday. Notwithstanding the threatening aspect of the weather the pavilions of the circus were full. The unanimous cry of all who attended it is, that it is the best circus and menagerie that has ever visited this city. The equestrian performances were superb and unequaled. We do not doubt but that the evening performances were equally as good as those in the afternoon but as we went to press before the performance commence, we are unable to state.

JOB PRINTING.—Our office being supplied with STEAM PRESSES, and a splendid assortment of the latest styles of NEW AND ELEGANT TYPES, BORDERS, RULES, and other material, we are prepared to do the finer grades of JOB PRINTING, such as

CARDS, CIRCULARS, BILL HEADS, LETTER HEADS, STATEMENTS, ENVELOPES, BANK CHECKS, PROGRAMMES, LEGAL BLANKS, VOUCHERS, ETC., ETC.,

INSURANCE POLICIES, APPLICATIONS, RAILROAD BLANKS, CATALOGUES, TRADE CIRCULARS, FANCY LABELS, PACKAGE LABELS, MEMORANDUMS, PAMPHLETS, ETC., ETC.,

with promptness, and in the very best style of the art. We execute everything new and elegant in the way of Type, Rules, etc., as soon as it is issued from the different Type Foundries of the United States, and are therefore always up with the times. Our facilities for turning out work expeditiously and neatly are unsurpassed by any establishment in the State.

Orders by mail will receive prompt attention.

THE STATE SCHOOL COMMISSIONER.—Professor Gustavus J. Orr, the present State School Commissioner, has long been identified with the cause of education in Georgia. For eighteen years he was Professor of Mathematics in Emory College. For four years he was President of the Southern Masonic Female College at Covington. During the past eighteen months he has been Professor of Mathematics in Oglethorpe University. Thus for nearly a quarter of a century he has been actively engaged in the work. He has been identified with the movement for popular education since its inception in 1850. He was a member of the committee appointed by the State Teachers' Association that prepared the plan of the present system of public instruction. Being cognizant of the fact we may here state that to Professor Mallon and Professor Orr is the credit due for its preparation.

The appointment of Professor Orr to the position was in obedience to the earnest request of the leading Educators of the State. The interest of education was alone consulted in his appointment. And we might here remark that nearly every educational institution in the State urged his appointment.

Professor Orr, from long experience, profound thought, complete identification with, and love of, the work, we feel confident, will give new impetus to the system and put it in successful operation.

CAPT. J. T. GLENN.—This young gentleman, of the Atlanta Bar, has been appointed by Gov. Smith to the Solicitorship of this Judicial Circuit. He is a college mate of both the proprietors of THE CONSTITUTION, who naturally, therefore, feel an interest in his success. He has, moreover, intrinsic merit, and we doubt not will perform his official duties honorably and well. We trust that his candidacy in another field will be as successful, and this is leap year, you know.

HEALTH! BEAUTY!!

Strong and Pure Rich Blood—Increase of Flesh and Weight—Clear Skin and Beautiful Complexion Secured to all.

Dr. Radway's Sarsaparillian Resolvent

Has made the most astonishing Cures; so quick, so rapid are the changes the Body undergoes, under the influence of this Truly Wonderful Medicine, that

EVERY DAY AN INCREASE IN FLESH AND WEIGHT IS SEEN AND FELT.

THE GREAT BLOOD PURIFIER.

Every drop of the SARSAPARILLIAN RESOLVENT communicates through the Blood, Sweat, Urine, and other fluids and juices of the system the vigor of life, for it repairs the wastes of the body with new and sound material. Scrofula, Syphilis, Consumption, glandular disease, Ulcers in the throat, Mouth, Tumors, Nodes in the Glands and other parts of the system, Sore Eyes, Strumorous discharges from the Ears, and the worst forms of Skin diseases, Eruptions, Fevers, Sores, Scald Head, Ring Worm, Salt Rheum, Erysipelas, Acne, Black Spots, Worms in the Flesh, Tumors, Cancers in the Womb, and all weakening and painful discharges, Night Sweats, Loss of Sperm and all wastes of the life principle, are within the curative range of this wonder of Modern Chemistry, and a few days' use will prove to any person using it for either of those forms of disease its potent powers to cure them.

If the patient, daily becoming reduced by the wastes and decomposition that is continually progressing, succeeds in arresting these wastes, and repairs the same with new material made from healthy blood—and this the SARSAPARILLIAN will and does secure—a cure is certain; for when once this remedy commences its work of purification, and succeeds in diminishing the loss of wastes, its repairs will be rapid, and every day the patient will feel himself growing better and stronger, the food digesting better, appetite improving, and flesh and weight increasing.

Not only does the SARSAPARILLIAN RESOLVENT excel all known remedial agents in the cure of Chronic, Scrofulous, Constitutional, and Skin diseases; but it is the only positive cure for

Kidney and Bladder Complaints

Urinary, and Womb diseases, Gravel, Diabetes, Dropsy, Stoppage of Water, Incontinence of Urine, Bright's Disease, Albuminuria, and in all cases where there are brick dust deposits, or the water is thick, cloudy, mixed with substances like the white of an egg, or threads like white silk, or there is a morbid, dark, bilious appearance, and white bone-dust deposits, and when there is a pricking, burning sensation when passing water, and pain in the small of the Back and along the Loins.

THE need of a CITY HOSPITAL for Atlanta has long been felt, but all efforts heretofore for the establishment of such have failed, our people being too poor to raise the money necessary for such a purpose, and the depleted condition of our State Treasury being such as to render successful legislation in the matter both impracticable and hopeless.

It is, therefore, proposed to appeal to all friends of so benevolent a project, and thus secure a nucleus to encourage an increase of the private donations already promised, which will render the scheme a success; and while the erection of such an Institution will be an enduring Monument to the Charity and Liberality of our citizens, it will also be in keeping with our onward march in the cause of

THE TRUE HEATER.—DR. PRICE'S BLOOD ENRICHER.—The remedy that promotes vital power, increases the quantity of nervous influence, recuperates exhausted energies, aids nature in restoring, overcoming, and eliminating all diseased materials. If your blood needs purifying or enriching, make use of this remedy at once, and see how direct and permanent the benefits you receive. As a tonic it is durable. All druggists have it for sale, who also sell Dr. Price's Special Flavorings.

RE-ANIMATING THE HAIR.—When the hair ceases to draw from the scalp the natural lubricant which is its sustenance, its vitality is, as it were, baldness, will be the certain result. The one sure method of avoiding such an unpleasant catastrope is to use Lyon's Kathairon, which, when well rubbed into the scalp, will speedily re-animate the hair and prevent it from falling out. Besides that, this inimitable resuscitant and strengthener of the Hair nourishes and stimulates its young and tender fibres, removes all obstacles to their growth in the shape of dandruff and dirt, and ultimately produces a new crop of hair, stronger, glossier, and twice as abundant as the old. As a hair dressing it is notably the most agreeable, refreshing and serviceable article ever placed upon a dressing-table.

ATLANTA, GA., Dec. 14, 1871.

The special committee of the General Assembly of the State of Georgia, appointed under a joint resolution, assented to December 1, 1871, to investigate "the management of the Western and Atlantic Railroad and the management of its finances, with that which goes to show the fraudulent use or embezzlement of any funds or property of the State, or the wrongful conversion thereof to the use of individuals, and by him and for whose benefit it was done," will meet for the purpose of said investigation at the room of the Attorney General in the capitol building, on Wednesday, the 3d of January next. All persons who may be in possession of any facts which may help said committee in the investigation they are required to make, are requested to give notice of the same to the undersigned at the office of Hill & Candler, in James' Building, Whitehall street, in this city.

THROW IN REINFORCEMENTS.—The Citadel of Life is in a state of siege all through the year, but is never more closely invested than in mid-winter. The liver is usually somewhat torpid, and the bowels more or less constipated at this season, and dyspepsia often assumes its most aggravated form in cold and wet weather. In short, the sluggish system seems inclined to intermit or shirk some of its most important duties under the influence of a low temperature, and requires wholesome stimulation. The spur required is Hostetter's Stomach Bitters, the only medicine which quickens the action of the secretive organs, and brings out the latent vitality of the system, without creating any febrile symptoms, or the slightest nervous excitement.

The great Vegetable Tonic is not recommended as a specific for Coughs, Colds and Consumption—that field being left open to the concocters of preparations which cannot by any possibility reach the lungs! but as a specific for the constitutional and physical weakness which invite pulmonary disease, it is literally infallible. The most insidious and terrible enemy of human life is not disease itself, but the weakness which affords it an opportunity to gain a firm hold of the vital system. Remember that Stamina, Vital Energy—the life-principle, or whatever you may choose to call the resistant power which battles against the causes of disease and death, is the grand safeguard of health. It is the garrison of the human fortress, and when it waxes weak, the true policy is to throw in reinforcements. In other words, when such an emergency occurs, commence a course of Hostetter's Bitters.

Ruptured

Ruptured persons of Atlanta and vicinity, are respectfully notified that certain itinerants have published the principal part of the following Circular, the one issued by Dr. Sherman, when he opened his office in New York, which circular now forms the first page in his book on Rupture. They have left out his name and substituted their own. Their object is to mislead the public by this deception. How far such men can be trusted with their peculative habilities and assumed skill, the reader may judge.

RADICAL CURE

—OF—

ABDOMINAL HERNIA OR RUPTURE,

Without Inconvenience to the Patient or Restriction in Exercise or Diet

DR. J. A. SHERMAN Artistic Surgeon, having devoted his time exclusively to the study and treatment of Abdominal Hernia, in its various forms and stages, in the Southern States, and in the West India Islands, respectfully announces to the public that he has opened an office, 697 Broadway, corner 4th Street, where he offers his services, during the business hours of each day, to those who are unfortunately afflicted with this distressing infirmity, in full confidence of his ability to afford them immediate and permanent relief.

During an experience of over Twenty-five years, the greater portion of which period was occupied a principal of the Rupture Curative Institute, New Orleans, Dr. S. has treated several thousand ruptured patients, of both sexes and of all ages, a great number of whom were restored to health and vigor and the enjoyment of the blessings of a sound body.

This unparalleled success spreading throughout the country prompted many ruptured patients to make long and fatiguing journeys from various parts of the United States, Mexico and Cuba, to the New Orleans Institute, with the view of reaping the benefit and experience of Dr. S., in the selection and application of his popular remedies.

The happy result of this acquired art by Dr. S. has been effected by most assiduous study, and an adaptation of one or the other of his seven patented inventions—the result of that study—to each case presented, in conjunction with his popular

RUPTURE CURATIVE COMPOUND!

an external application, promoting a speedy and permanent cure, without subjecting the patient to any of the sufferings and injuries resulting from an attempted cure by the rigid and insupportable pressure of a Truss.

So reliable and beneficial is this treatment that the patient, in most instances from the first application, will cease to be annoyed by a return of the rupture, and will be enabled to take th most active exercise on foot or on horseback, with perfect security against the dangers of strangulated Hernia.

Dr. S., in order to arrive at the absolute certainity of the correctness of the peculiar course of treatment invented and adopted by him devoted great attention to the mechanism of the structure involved in the course of Hernia, so that he is now assured, by a large experience, that it is in accordance with the principles of science, and with the most universally acknowledged practice of ARTISTIC SURGERY and he asserts, with the confidence thus inspired, that it will permanently relieve all cases of reducible Hernia, without regard to the age of the patient or the duration of the injury, while it is wholly free from all the cruelty that has characterized the treatment of the malady from the earliest age to the present day. He, therefore, invites the earnest attention of the afflicted and the closest scrutiny of the profession.

OFFICE 697 BROADWAY, CORNER 4TH STREET, N. Y.

DR. SHERMAN having received many Atlanta letters, from persons afflicted with Rupture, who are unable to visit New York treatment, designs to be in Atlanta, professionally prepared to adopt his method of cure to those who may desire it. Due notice of which will be given in the Newspapers.

MR. EDITOR—I deem it due to those afflicted with this terrible and painful disease, to make the following statement: A negro boy about nineteen years of age, had been afflicted with Hernia for the space of three years. The boy belonged to John Collier, Esq., of Issaquena county. Two physicians examined him and pronounced his case hopeless. As there was a difference of opinion about the mode of treatment, (one suggested the use of the knife, to which the other and myself object d,) I took him to New Orleans, and obtained Dr. J. A. Sherman's Rupture Curatives, and after having used them about three months, the boy was entirely restored to his health and is now perfectly well. For the last three years he has been busy on the plantation, doing all the work of a field hand, rolling logs, etc., without the least inconvenience. I give this statement voluntarily, for the benefit of those who have this disease and for my gratitude to Dr. Sherman.

W. T. MILLS, M. D.
Vicksburg, May 8, 1862.

DR. VALENTINE MOTT'S OPINION OF DR. SHERMAN'S INVENTION.

NEW YORK, September 22, 1856.

DEAR SIR—I have just witnessed the application of Mr. Sherman's Hernial device, and am much pleased with it; indeed I know of nothing so well calculated for the purpose for which it is intended, and I advise you to call on him and procure one. It will doubtless afford you the relief you have been so long endeavoring to obtain. Mr. Sherman has had much experience and is very skillful in treating Hernia. You will find him at the St. Nicholas Hotel.

Yours, etc.,
VALENTINE MOTT.

UNITED STATES HOTEL,

Cor. Fulton, Water and Pearl Sts.,

NEW YORK.

THIS well known, favorite hotel, has recently been renovated, remodeled and furnished new and elegantly throughout. It is kept on the European plan, and has ample accommodations for four hundred guests.

The location is more accessible to all parts of New York and Broklyn than any other house in the city. The Broadway Stages pass the hotel every three minutes, besides various lines of Street Cars, one of which intersects every other route in New York.

It being but two blocks from Fulton Ferry, makes it convenient for those wishing to visit the "City of Churches," as from this ferry diverges all the principal railroad routes in the city of Brooklyn.
